

Muyiwa Adeyemi

Executive Assistant & Tech Operations Specialist

■ muyiwaadeyemim@gmail.com | ■ 07031174630 | Lagos, Nigeria

PROFESSIONAL SUMMARY

Results-driven Executive Assistant and Tech Operations Specialist with hands-on experience deploying and managing digital tools, building automation workflows, coordinating projects, and supporting executive operations across multiple business units. Proficient in a wide range of tools including Notion, ClickUp, n8n, MainWP, Dokploy, and various API integrations — bringing a proactive, thorough approach to every assignment, whether technical, operational, or administrative.

WORK EXPERIENCE

Executive Assistant

Base XII Studios | Lagos, Nigeria | January 2026 – Present

Project Coordination & Productivity Tools

- Arranged and coordinated multiple projects across teams using Notion and ClickUp, ensuring tasks were tracked, deadlines met, and progress communicated clearly.
- Seamlessly adopted and operated a diverse range of tools and software to support business operations, demonstrating strong adaptability and a quick learning curve.

Tech Operations & Systems Management

- Monitored 11 company websites via MainWP dashboard, tracking plugin and theme updates to ensure zero downtime across all digital properties.
- Built and deployed an n8n automation workflow to monitor all 11 websites, significantly reducing manual monitoring hours each week.
- Managed self-hosted tools on Dokploy, monitoring container health and reloading Docker Compose stacks to restore services when needed.
- Configured and integrated third-party platforms including Postiz, Metabase, Zoho Mail, TikTok API, and Facebook API.
- Set up group email (davis@basexii.com) on Zoho Mail with custom forwarding rules for seamless team communications.

Web Development & LMS

- Contributed to the development and setup of the CIIFA main website.
- Built the Parthian Partners Learning Management System (LMS) from scratch, including the full dashboard.
- Edited and maintained Tom Godwin's website, implementing regular updates and content changes.
- Go-to technical support for CBA Africa Music classes — uploading modules, classes, and quizzes via the SafetyCulture app.

Executive & Operational Support

- Conducted a thorough car inspection on behalf of the executive, facilitating a successful vehicle purchase.
- Carried out a property inspection, providing detailed assessment to support executive decision-making.
- Coordinated full logistics for furniture transport from Maiduguri to Lagos, including last-mile delivery to the executive's residence.
- Handled brand correspondence with Sosa Foods brand manager and a facility security company.

- Compiled and organised all previous branding work used to build the official Base XII Studios company profile.

XII Gifts — Customer & Fulfilment Liaison

- Coordinated the full XII Gifts order cycle — from initial customer enquiries through to production and successful delivery across multiple locations.
- Monitored and tracked successful delivery of orders across multiple locations in Nigeria.

Site Engineer / Supervisor

Kharis Engineering Services Limited | July 2020 – August 2022

- Supervised construction site operations, ensuring projects were delivered on time and within specification.
- Sourced and managed materials, serving as liaison between the company and clients.
- Produced detailed reports and accurately interpreted engineering drawings for construction teams.
