WHERE I'VE WORKED

Experience

Executive Assistant

Jan 2026 – Present

Base XII Studios · Lagos, Nigeria

PROJECT COORDINATION & PRODUCTIVITY TOOLS

- Arranged and coordinated multiple projects across teams using Notion and ClickUp, ensuring tasks were tracked, deadlines met, and progress communicated clearly.
- Seamlessly adopted and operated a diverse range of tools and software to support business operations, demonstrating strong adaptability and a quick learning curve.

TECH OPERATIONS & SYSTEMS

- Monitored 11 company websites via MainWP, tracking plugin/theme updates to ensure zero downtime across all properties.
- Built an n8n automation workflow to monitor all 11 websites, eliminating hours of manual checking weekly.
- Built a second n8n automation to capture new WooCommerce orders and pipe them directly into Mautic, feeding email campaigns and customer retention workflows without manual data entry.
- Set up and structured Twenty CRM from the ground up — building segments across People, Company, and Projects so any customer or partner record can be found in seconds.
- Managed self-hosted tools on Dokploy — monitored container health and reloaded Docker Compose stacks to restore services.
- Configured integrations including Postiz, Metabase, Zoho Mail, TikTok API, and Facebook API.
- Set up group email with Zoho Mail and configured custom forwarding rules for team communications.

WEB DEVELOPMENT & LMS

- Contributed to setup and configuration of the CIIFA main website.
- Built the Parthian Partners LMS from scratch, including the full user dashboard.
- Edited and maintained Tom Godwin's website with regular updates.
- Go-to technical support for CBA Africa Music classes — uploading modules, classes, and quizzes via SafetyCulture.

EXECUTIVE & OPERATIONAL SUPPORT

- Conducted car inspection on behalf of the executive, facilitating a successful vehicle purchase.
- Supported end-to-end landed property acquisition — site verification, risk assessment, and supervision — to safeguard the executive's property investments.
- Coordinated land survey verification and documentation processes, including registration at the State Land Registry and Certificate of Occupancy (C of O) processing.
- Supervised building construction projects from foundation through to handover, ensuring quality and adherence to plan at every stage.
- Coordinated full logistics for furniture transport from Maiduguri to Lagos, including last-mile delivery.

- Handled brand correspondence with Sosa Foods brand manager and a facility security company.
- Compiled and organised all previous branding assets used to build the Base XII Studios company profile.
- Coordinated the full XII Gifts order cycle — from initial customer enquiries through to production and successful delivery across multiple locations.

Site Engineer / Supervisor

Jul 2020 – Aug 2022

Kharis Engineering Services Limited · Nigeria

- Supervised construction site operations, ensuring on-time delivery within specification.
- Managed material sourcing and served as liaison between company and clients.
- Produced detailed reports and accurately interpreted engineering drawings for site teams.

WHAT I BRING

Skills

Tech & Systems

n8n Automation · MainWP · Dokploy · Docker · Postiz · Metabase · Zoho Mail · TikTok API · Facebook API · Twenty CRM · Mautic · WooCommerce

Web & LMS

WordPress · LMS Development · SafetyCulture · Site Maintenance · Content Upload · Plugin Management

Notion · ClickUp · Executive Support · Logistics Coordination · Stakeholder Comms · Document Management · Asset Inspection · Brand Management

Real Estate & Property

Property Acquisition · Site Verification & Supervision · Construction Supervision · Land Survey Verification · C of O Processing · State Land Registry · Real Estate Advisory

Data Analysis

Power BI · Excel · SQL · Python · Machine Learning · Descriptive Statistics · Trend Analysis · Data Cleaning · Data Visualisation

THINGS I'VE BUILT

Notable Projects

PROJECT MANAGEMENT

Multi-Project Coordination (Notion & ClickUp)

Arranged and coordinated multiple concurrent projects using Notion and ClickUp — managing tasks, tracking deadlines, and keeping teams aligned across Base XII's business units.

AUTOMATION

n8n Website Monitor

Built a full automation workflow using n8n to continuously monitor all 11 company websites and alert on downtime — eliminating hours of manual checking weekly.

AUTOMATION

WooCommerce–Mautic Order Sync

Extended the n8n automation suite to capture new WooCommerce orders in real time and pipe them directly into Mautic — powering targeted email campaigns and retention workflows without manual data entry.

LMS DEVELOPMENT

Parthian Partners LMS

Built the Parthian Partners Learning Management System from scratch, including the full user dashboard, course structure, and content management.

WEBSITE

CIIFA Main Website

Contributed to the setup and configuration of the main CIIFA website, handling platform setup and content structure.

PLATFORM INTEGRATION

Multi-Platform Integration Suite

Configured and connected Postiz, Metabase, TikTok API, Facebook API, and Zoho Mail for Base XII's digital operations stack.

CRM & DATA OPS

Twenty CRM Setup & Segmentation

Structured Twenty CRM from the ground up, building segments across People, Company, and Projects so any customer or partner record can be found in seconds.

OPERATIONS

Maiduguri–Lagos Logistics

Coordinated end-to-end furniture transport from Maiduguri to Lagos, managing logistics planning and last-mile delivery to the executive's residence.

BRAND & CONTENT

Base XII Company Profile

Compiled, organised, and structured all previous branding assets into a cohesive company profile used for official business development.

PERSONAL WORK

Data Analytics Projects

DATA ANALYSIS

GTX Sales Dashboard

Built an interactive Power BI dashboard tracking core sales KPIs. Ran descriptive analysis in Excel and Power BI to surface trends and benchmark product performance across the catalogue.

DATA ANALYSIS

Los Angeles Crime Report Analysis

Cleaned and analysed a large crime dataset spanning regions, crime type, weapon used, and hotspot locations. Combined SQL for data retrieval and Python for deeper analysis, with Power BI reports to visualise crime trends across LA.

DATA ANALYSIS

World Terrorism Dataset Analysis

Cleaned and explored a global terrorism dataset in Python — descriptive statistics, trend analysis, and machine learning — to identify key risk factors and regional attack patterns, visualised through Power BI dashboards.

ACADEMIC BACKGROUND

Education & Certifications

Bachelor of Engineering

University of Ilorin, Nigeria

Graduated 2017

Ordinary National Diploma

Kwara State Polytechnic, Nigeria

Graduated 2011

Google Data Analytics

Google / Coursera
